

At Landmark Hospital of Southwest Florida, our goal is to provide patients with the highest quality care and the best possible hospital experience. We know that understanding billing, insurance, and medical records may seem overwhelming at times. To make this process more transparent and help patients understand their personal out-of-pocket responsibility, the hospital provides the following information:

State of Florida Health Care Pricing Website

The Florida Agency for Health Care Administration (AHCA) focuses on providing Floridians with access to affordable, quality health care. AHCA maintains a pricing website that provides information on payments made to hospitals for defined service bundles and procedures.

The ACHA pricing website is located at: <http://pricing.floridahealthfinder.gov>.

The information found on the AHCA pricing website is non-personalized, which means it is not a specific, personalized estimate of costs that may be incurred by a patient for anticipated services. Actual costs incurred by a patient will be based on actual services rendered for the duration of the patient stay.

Personalized Estimate of Costs

All hospital patients, potential patients, or legal guardians of patients have the right to request a personalized estimate of costs for nonemergency medical

services. Our business office welcome questions and are available to provide a personalized estimate. They can be reached by phone at (573) 331-8021, Monday through Friday, 8:00 a.m. to 4:30 p.m.

Payment, Billing, and Assistance Policies

The hospital has established payment and billing policies regarding financial assistance, charity care, billing, and collections. A detailed explanation of these policies and procedures can be found by clicking on the “Patient Billing” link under the “Patients & Visitors” tab on the hospital’s website.

Information on Health Insurers, Health Maintenance Organizations, and Health Care Providers

The “Patient Billing” link under the “Patients & Visitors” tab on the hospital’s website also provides patients with

- A list of names and web addresses of health insurers and health maintenance organizations (HMO) with which the hospital is contracted as a network provider or participant, and
- A list of names and contact information of health care providers (including doctors) and medical practice groups with which the hospital has contracted to provide services. All patients should contact the health care providers that may provide services while the patient is in the

hospital regarding a personalized cost estimate, billing practices, and participation with a patient's health insurer or HMO.

Health care providers listed on the "Patient Billing" link may not participate with the same health insurers or HMO as the hospital.
