

# FLORIDA TRANSPARENCY IN HEALTH CARE

The Florida Agency for Health Care Administration (AHCA) serves as the chief health policy and planning entity in Florida. The agency is responsible for administering Medicaid, licensing and regulating health facilities and providing information to residents about the quality of health care they receive in the state. The website contains performance and outcome data for health care facilities in Florida as well as information on selected medical conditions and procedures. Learn more at [Florida Agency for Health Care Administration](#).

## Financial Matters

Learn more about payments for defined service bundles and procedures at [pricing.floridahealthfinder.gov](#). Service bundle information is not a personalized estimate of costs that may be incurred for anticipated services. Actual costs incurred will be based on services actually provided.

## Payment, Billing, and Assistance Policies

The hospital has established payment and billing policies regarding financial assistance, charity care, and collections.

Charity Care and Forms for Financial Assistance and billing policies can be found by following this link [Patient Billing Information](#)

A dedicated business office staff member will handle all insurance billing. They are also available to meet with patients and/or family members to discuss the details and answer questions related to insurance coverage. In addition, you may request a more personalized estimate of hospital charges or any other information you may need. For more information regarding financial assistance and collection procedures, please refer to our policy listed above, or call our business office at 919.900.8299 ext. 304 and ask for a representative.

## Professional Services

All of the physicians providing professional services in the management and treatment of your care while you are a patient at Landmark Hospitals are independent practitioners and may bill separately from Landmark, either to you or to your insurance company. The physicians involved in your care may or may not participate with the same health insurers or HMOs as Landmark. Upon request we will provide you with a list of physicians who may be involved in your care. To determine whether a particular physician participates as a network or preferred provider with your health insurer, you will need to contact each physician or physician group directly. In addition, you may request a more personalized estimate of their charges or any other information you may need.
